

Hyde Park

Blackbird Designs

Our fabric line, *Hyde Park*, is named for a historic neighborhood in the Kansas City area. Weary travelers on the Santa Fe Trail welcomed the sight of the natural springs that meandered from rocky outcroppings to various creeks in the area. Today old homes have been restored to their former glory and neighbors once again sit on the front porch while they enjoy the sense of timelessness in the shade of old sycamore trees. You'll be able to wrap yourself in nostalgia when you make a quilt using our *Hyde Park* fabric line. The soft colors and vintage-looking prints are a perfect match for remembering perfect moments.
